

ANTI-CELLULITE FORMULA

by BIORISM™

PRODUCT FACT SHEET

PRODUCT DESCRIPTION:

ANTI-CELLULITE FORMULA by BIORISM™, is specially formulated for textiles application, based on silica particles loaded with an unique patented molecule obtained by a biotechnological process, using an Omega 5 fatty acid from pomegranate seed oil (Punica granatum) and Tyrosol. Pomegranate seed oil, which is rich in punicic acid, can reduce the build-up of lipids. Tyrosol is used to combat cellulite-related oxidant stress.

Tyrosol is a molecule with a phenol group possessing anti-oxidising properties, which complete the anti-radical action of punicic acid and combat cellulite-related oxidant stress more effectively.

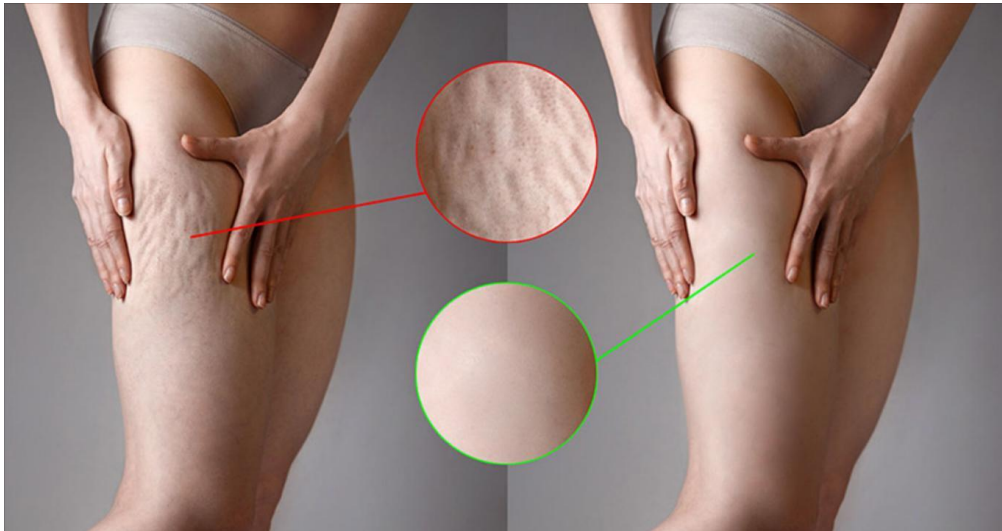

DELIPIDOL® has a distinct lipolytic activity, which results in a marked reduction of the medium-size of adipocytes – an activity similar to the positive reference containing 5% caffeine.

NOTE: **Nanotechnology** is science, engineering, and technology conducted at the nanoscale, which is about 1 to 100 nanometers. Nanoscience and nanotechnology are the study and application of extremely small things and can be used across all the other science fields, such as chemistry, biology, physics, materials science, and engineering." - NANO.GOV

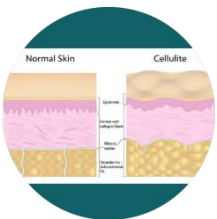

ANTI-CELLULITE FORMULA

Fact Sheet

Cellulite is caused by a buildup of fat underneath the skin. Some women are more predisposed to it than others. The amount of cellulite you have and how noticeable it is can be based on your genes, daily diet, body fat percentage, and age. The thickness of your skin also affects the appearance of cellulite.

→ When cellulite forms beneath your skin, it creates dimples. These dimples may form on the thighs, bottom, stomach, or waist region.

→ The key ingredients of this formula may help break down fat at a cellular level, which is containing 5% of caffeine and may improve circulation to help reduce cellulite.

→ Nanotechnology infused fabric promotes blood circulation and is extra elastic against your skin. Benefit of smoothing out any cellulite that may show in regular leggings.

ANTI-CELLULITE FORMULA

Protection Fact Sheet

THE BENEFITS OF BIORISM™ ANTI-CELLULITE FORMULA ARE:

- Improves skin laxity and reduces the orange-peel looking skin.
- Reduces fibrous partitions between the fat cells
- Reduce the build-up of lipids
- complete the anti-radical action of puniic acid and combat cellulite-related oxidant stress more effectively.
- Gives support and control to the abdominal area

Cellulite

Stretch Marks

Varicose Veins

HOW CAN ANTI-CELLULITE FORMULA BENEFIT YOUR BRAND?

- Get an advantage over competitive brands with this special add-on feature in your product.
- Your product becomes associated with health benefits and not just functional.
- Widen your appeal to capture health and wellness-conscious customers.
- Beyond its proven efficacy, Delipidol® has an excellent safety profile.
- Unique and patented molecule obtained by a biotechnological process without solvent, from puniic acid, an omega 5 fatty acid from pomegranate seed oil (*Punica granatum*) and tyrosol.

APPLICATIONS:

- Inner Wear
- Sleep Wear
- Body Suit
- Yoga Clothes
- Sports Wear

ANTI-CELLULITE FORMULA/FABRIC

Fact Sheet

ANTI-CELLULITE FORMULA KEY INGREDIENTS: (INFUSED using NANOTECHNOLOGY)

DELIPIDOL®	Omega 5 – Punicic Acid	Pomegranate seed oil
By limiting fatty acids storage and enhancing carnitine palmitoyl transferase, enzyme responsible for fatty degradation in mitochondria, fat nodes decrease.	Considered a powerful antioxidant, it is an agonist of PPAR gamma, has been shown to reduce lipid peroxidation, and restore levels of antioxidant enzymes such as superoxide dismutase (SOD), catalase and glutathione peroxidase.	Known to have restorative properties as it is packed with antioxidants and over the years has been used for hair treatments, skincare and for medicinal purposes.
Veritable protection against cellulite progression.	Potent antioxidant and anti-inflammatory, perfect for helping to stop premature ageing due to sun exposure.	Beneficial biological effects such as anti-inflammatory, antioxidant, anti-apoptotic, anticancer.
Delipidol is proven to significantly reduce fat nodes present in the thighs.	May help the body effectively respond to inflammation, and play a role in immune response.	Pomegranate boosts the production of collagen in the skin which in turn improves the skin's elasticity and makes it softer, plumper and youthful.
Decreases on orange peel appearance by reducing the fat nodes by limiting the storage and activating the destocking.

FAQ:

1. How frequent do I need to wear Biorism™ Anti-Cellulite before I can see obvious result?
You will see obvious result after 30 days of constant wearing of Biorism™ Anti-Cellulite infused apparel.
2. How many wash can Biorism™ Anti-Cellulite infused apparel last?
It can last up to 30 washes.
3. What happened after the 30 washes?
We will be rolling out the Biorism™ Anti-Cellulite booster in capsule format so that you can give your old Biorism™ apparel another boost. All you need to do is to add the capsule into your normal laundry wash.
